December Character Trait

We are looking forward to focusing on Gratitude this month! One way to think about Gratitude is “choosing to appreciate the people and things in our lives.” Practicing Gratitude can increase our well-being and our happiness. Gratitude is 1 of 3 traits we will focus on throughout the year that helps students Be Well. Throughout the school, students will be developing skills like emotion regulation, positive self-talk, and stress management.

Throughout the year we will be celebrating and recognizing students who exemplify outstanding character traits.

SICK DAY GUIDELINES

Making the Right Call When Your Child Is Sick

Should I keep my child home or send him/her to school?

Your child needs to **stay home** if he or she:

- Has a fever of **100.4** degrees or higher
- Has been **vomiting** or has **diarrhea**
- Has symptoms that keep your child from participating in school, such as:
 - Very tired or poor appetite
 - Cough that he/she cannot control or sneezing often
 - Headache, body aches, or earache
 - Sore Throat – a little sore throat is okay for school, but a bad sore throat could be **strep throat**, even if there is no fever. Other signs of strep throat in children are a headache and stomach upset, or rash. Call your doctor if your child has these signs

Here is a link to the most recent Covid19 guidelines:

<https://doh.wa.gov/sites/default/files/2023-02/420456-COVID19DecisionTrees.pdf>

24 Hour Rule:

- **FEVER:** Keep your child home until his or her **FEVER** has been gone **WITHOUT** medicine for **24 hours**. Colds can be contagious for at least 48 hours. Returning to school too soon may slow recovery and make others sick.
- **VOMITING OR DIARRHEA:** Keep your child home for 24 hours after the **LAST** time he or she **vomited or had diarrhea**.
- **ANTIBIOTICS:** Keep your child home until 24 hours after the **FIRST** dose of antibiotics for anything like ear infection or strep throat.

We often have many children with colds coming to school, and each one is passing their sickness to others. Please help others from becoming sick by keeping your child home.

From the Nurse

When to stay home:

- Fever of 100.4 degrees or higher
- Feels too sick to participate in school activities
- Needs fever or pain medication (like Tylenol or Motrin) to feel good
- Moderate to severe cough
- Shortness of breath
- Stomach pain
- Sore throat
- Diagnosed with COVID, flu, strep throat or pinkeye
- Vomiting
- Diarrhea
- New rash
- Bloodshot eyes or excessive discharge

If a student develops these symptoms during the school day, nurses will use their discretion to determine whether a student should be sent home.

When to return to school following an illness:

- 5 days following a COVID diagnosis if asymptomatic or symptoms are resolving (no fever, runny nose or productive cough)
- No fever for 24 hours without fever-reducing medications like Tylenol or Motrin
- Occasional cough
- Feels good enough to fully participate in school activities
- No vomiting or diarrhea for 24 hours
- 24-hours of antibiotics following a strep throat, pinkeye or ear infection diagnosis
