4. Describe the action steps the school/district will take to reduce the opportunity gap in student possession of ASB cards and/or participation in extracurricular activities for the up coming school year.

According to the student survey, less than 3% of students stated that cost was a barrier for them. We have provided documentation and marketed to students and families that there is help if they cannot afford the ASB cards or the participation fees. What was more telling on the survey are the students that aren't interested, have family responsibilities or jobs that are the barrier. In the 23-24 school year we will continue to survey students, provide information to our families and make a concentrated effort to reach out to students who may have barriers to see what we can do to provide support.
